# Redux is for JavaScript applications

---

Redux is not tied to React

A large, semi-transparent watermark of the Vizle logo is centered on the slide. It features a large white 'V' on a grey background, a play button icon on a light green background, and the word 'Vizle' in white on a light green background.

Vizle

# Few points before we proceed

---

The most basic mistake you can do is learning redux and react in parallel

“When should I use redux in my react application?”

- You have large amounts of application state that are needed in many places in the app
- The app state is updated frequently over time

A large, stylized 'Vizle' logo in white text on a light green background, positioned at the bottom of the slide.
