

A graphic with the text 'Hello Friends' in a playful, rounded font. 'Hello' is in dark blue and 'Friends' is in light blue. The text is surrounded by decorative elements like stars and radiating lines. The background is a white desk with school supplies like a blue notebook, pens, and a paperclip.

Hello  
Friends

## Head-tilt with chin-lift & Jaw-thrust maneuver

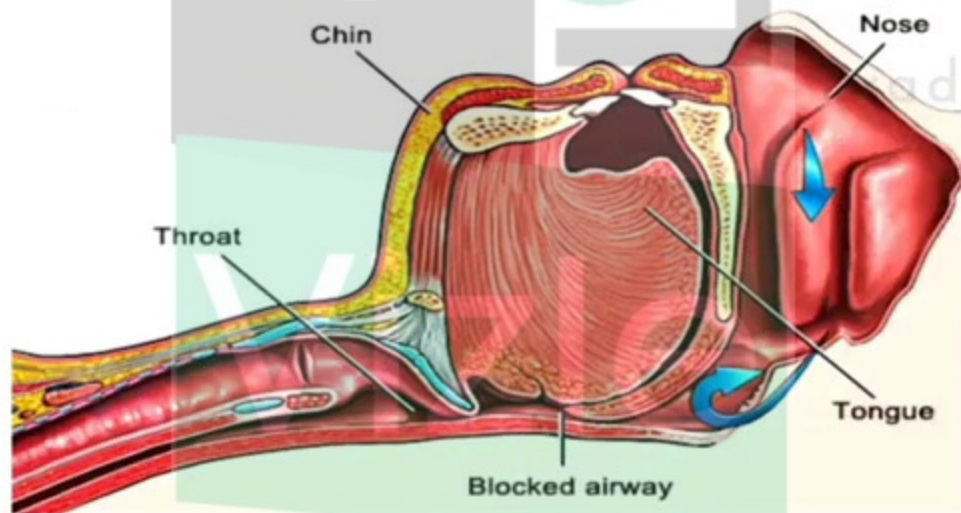

p Anes..

Vizle

## Why to perform jaw thrust or chin up Maneuver?

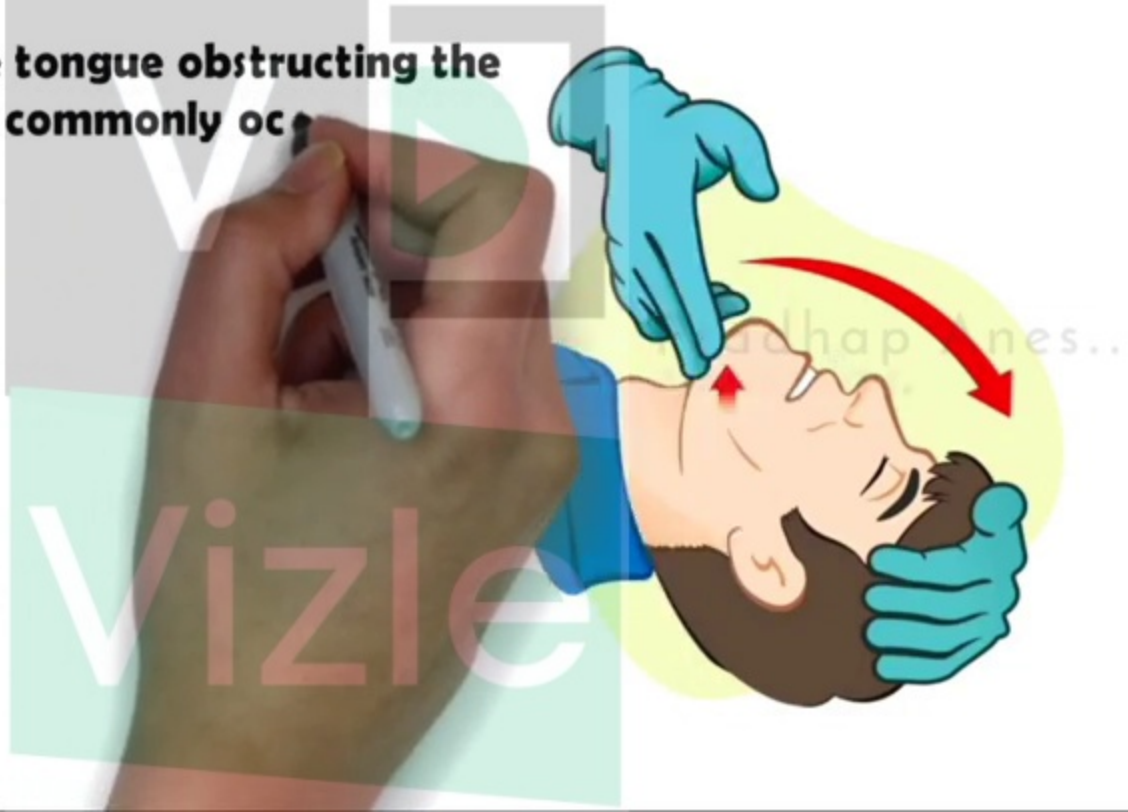

If the patient becomes unconscious when he is on back. The muscles of his jaw and tongue get relaxed and tongue falls against the posterior pharyngeal wall blocking the airway. This leads to airway obstruction.

## Head tilt and chin lift Maneuver:

- Used to prevent the tongue obstructing the upper airways, which commonly occurs in unconscious patients.

## Head tilt and chin lift Maneuver:

- Used to prevent the tongue obstructing the upper airways, which commonly occurs in an unconscious patient
- This lifts the tongue away from the posterior pharynx and improves airway patency

### Contraindications:

- Do not per

## W thrust technique:

- Used on patients with a suspected spinal injury and is used on a supine patient
- Directly lifts the hyoid bone and tongue away from the posterior pharyngeal wall

## Head tilt chin lift

Head tilt chin lift is used to open  
Airway
