HPLC is used to ensure the  
quality and safety of  
**pharmaceutical products.**

This technique is widely used  
in applications ranging from  
**monitoring**, identifying

vizle

**drug product** discoloration,  
and drug product  
counterfeiting.

vizle

It **is use** for the analysis of antibiotics, sedatives, steroids and analgesics.

Vizle

Biochemistry: High performance  
**liquid chromatography** found one

and in part was responsible for  
the **rapid development**

Subsequently, chromatography  
has found a **wide application**
