Hi FRIENDs.

How are you? Hopes you & your family Fine, Safe, Healthy and Enjoying Life!

Friends, I am very sorry due to not posted any video since long for learning or IT certification exam prep but not to worry now because I will now regularly and actively publish most useful videos for CERTIFICATION exams on this Channel.

I earnestly request you to SUBSCRIBE my channel and click the BELL icon to get notification whenever I publish new videos on this channel.

Thanks and Happy Learning!

Warm Regards,

Dev

Professional Scrum Master - I

Question 17:

Which two ways of creating Development Teams are consistent with Scrum's values? (Choose two.)

- [x] Existing teams propose how they would like to go about organizing into the new structure

- [ ] Managers personally re-assign current subordinates to new teams

- [ ] Managers collaborate to assign individuals to specific teams

- [ ] Bring all the developers together and let them self-organize into Development Teams

- [ ] The Chief Product Owner determines the new team structures and assignments

Question 31:

How much of the Sprint Backlog must be defined during the Sprint Planning event?

- ○ Just enough tasks for the Scrum Master to be confident in the Development Team's understanding of the Sprint

- ○ Enough so the Development Team can create its best forecast of what is can do, and to start the first several days of the Sprint

- ○ The entire Sprint Backlog must be identified and estimated by the end of the Sprint Planning meeting

- ○ Just enough to understand design and architectural implications

⭐ Question 45:

Select two ways in which technical debt impacts transparency. (Choose two.)

☐ When calculated and estimated, the total amount of technical debt shows exactly how long until the Product Owner can release the Increment

☐ It leads to false assumptions about the current state of the system, specifically of an Increment being releasable at the end of a Sprint

☐ As development progresses and code is added, the system becomes more difficult to stabilize, which results in future work being slowed down in unpredictable ways

☐ It enhances transparency for the Product Owner as a Development Team is not allowed to do additional feature development in a Sprint as long as there is technical debt

Question 57:

Which Scrum Values are exhibited by not building Product Backlog items that have low business value? (Choose three.)

- [ ] Economic Value Added

- [ ] Respect

- [ ] Focus

- [ ] Earned Value

- [ ] Courage
