## TIME QUICK TIPS:

This video is not a substitute for a thorough and complete reading and understanding of the safety instructions in the owner's manual.

Consult local utility companies by dialing 811 and have the area clearly marked for underground utilities prior to stump grinding.

Keep bystanders at least 75 feet away and never allow children or untrained persons to operate the stump grinder.

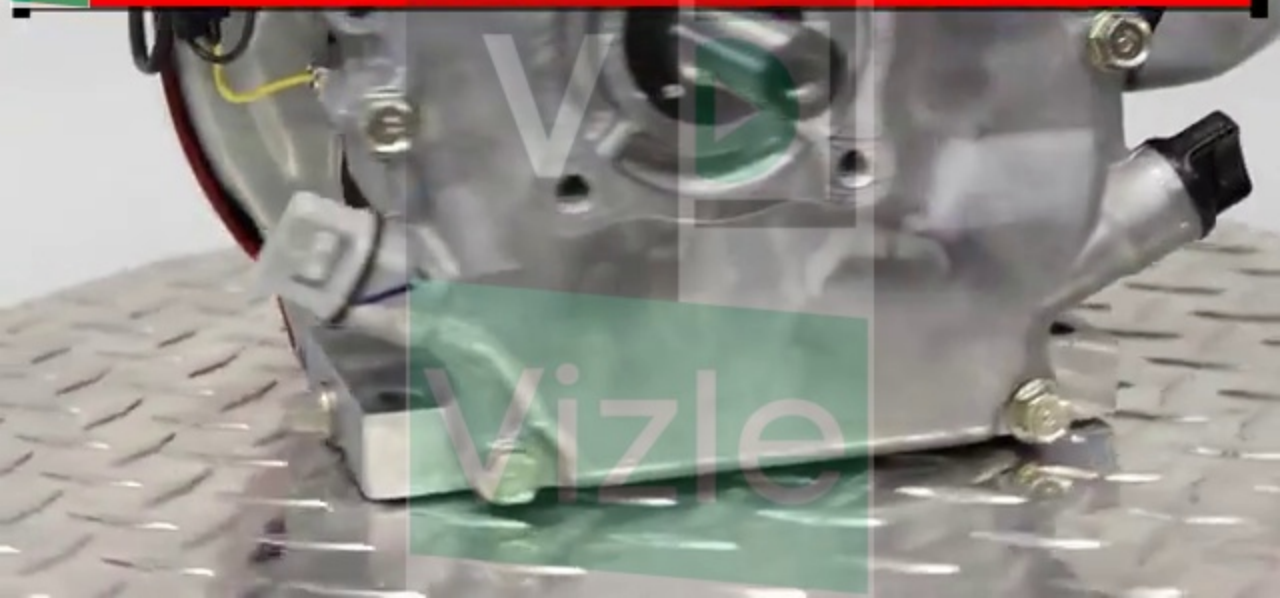

Beware of hanging jewelry, long hair or loose clothing.

Avoid working in wet or slippery conditions.

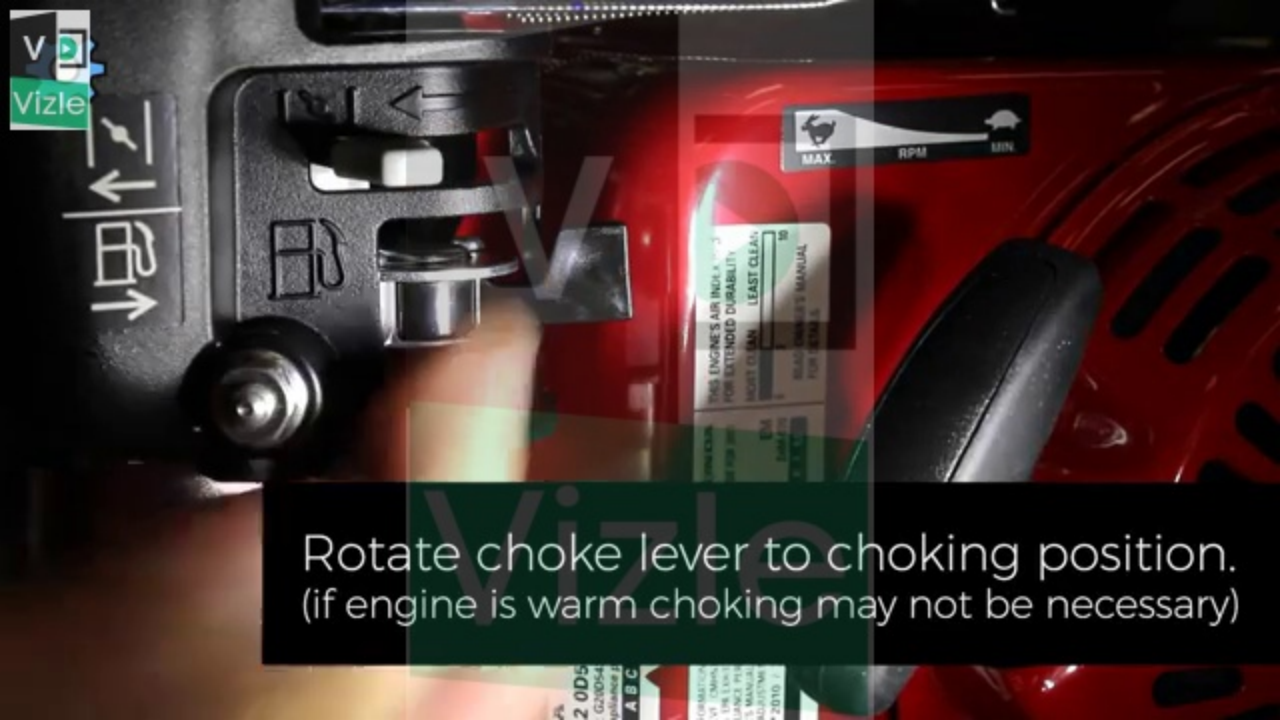

Keep away from flammable liquids, gas and dust.

# CHECKING OIL

vizle

Rotate choke lever to choking position.  
(if engine is warm choking may not be necessary)

**V** Once the unit has been started, continue to hold the handle bar down, to keep the cutting wheel above the ground, immediately go into the OPERATOR POSITION (behind the machine).

Position the cutter wheel near the front-top edge of the stump, where you are to begin grinding. Once in position, engage brake lever to lock the wheel which will make it easier to handle during the sweeping motion and then compress the right lever on the handle bar to engage the throttle and cutting wheel.

Begin grinding the stump using a side to side motion.
