Software: every aspect of our lives

- More people: interested in more Features & functions
- New application built: hear from many, different idea
- Concerted effort: understand the problem before a solution is developed
- Individuals, businesses, & Govts: Requirements: increasing complex
  - Individual, large teams
  - Complexity: demands careful attention
  - Design: pivotal activity
- Individuals, businesses, & Govts.: Rely for strategic and tactical decision making
  - Day-to-day operations and control
  - If software fails: minor inconvenience to catastrophic failures
  - S/w: high Q
- Perceived value of a specific application grows:
  - User base and longevity
  - Demands for adaptation and enhancement
  - S/w: Maintainable
