**Doing good to others is
not a duty, it is a joy,
for it increases our own
health and happiness.**

E MAIL

Electronic mail (email) is a method of exchanging messages ("mail") between people using electronic devices. Ray Tomlinson is credited as the inventor of email; in 1971, he developed the first system able to send mail between users on different hosts across the ARPANET, using the @ sign to link the user name with a destination server.
