#3

- All cells formed from pre-existing cells
- Cells do not spontaneously generate

Vizle

#5

- All cells have the same basic chemical composition
- There are different types, but they are similar at their core

#1

- All living things are made of cells
- May be unicellular or multicellular

#2

- The cell is the basic unit of life (structurally and functionally)
- Life does not exist at a more basic form than the cell

#3

- All cells formed from pre-existing cells
- Cells do not spontaneously generate

#4

- Hereditary information is passed on during cell division
- Each cell is a genetic copy of its parent

#5

- All cells have the same basic chemical composition
- There are different types, but they are similar at their core

#6

- Energy flow occurs within cells
- All metabolic and biochemical processes occur within cells
